Poverty Reduction Briefing

2016. No. 4 (February 1-10, 2016)

State and Ministerial Policy News:

President Xi Jinping stressed during his visit in Jiangxi Province, “Communist Party of China (CPC) is a party committed to serving the people wholeheartedly. We will continue to vigorously support the development of old revolutionary base areas so that our fellow countrymen can live a better life. We will not leave any impoverished household or a single impoverished person behind on our way to reduce poverty.”

Ministry of Land and Resources: we should take good advantage of the policy of linking the increase and decrease of urban and rural construction land to support poverty alleviation in a flexible way. On February 4th, the Ministry of Land and Resources held the 3rd Minister Meeting, during which the *Notice of Taking Good Advantage of the Policy of Linking the Increase and Decrease of Urban and Rural Construction Land to Vigorously Support Poverty Alleviation and Development and Poverty Alleviation through Relocation* was examined and approved. The Notice specifies that China will strengthen support in quota to poverty alleviation and

poverty alleviation through relocation by expanding balance quota of construction land in impoverished areas.

Chongqing Municipality: over 1,100 poverty-stricken villages received help from “grass-root financing” to shake off poverty. Mutual aid fund for poverty alleviation (grass-root financing) mainly comes from three sources financial poverty alleviation fund of county government, public accumulation fund of village collective economic organizations and money for shares by villagers — which now approaches one million yuan. There were only ten mutual financial aid cooperatives for poverty alleviation in Chongqing at the beginning; now they cover over 1,100 poverty-stricken villages, helping approximately 90,000 peasant households. Mutual aid fund is used in a scrolling manner at poverty-stricken villages, which makes it possible to amplify the effect of poverty alleviation fund and realize sustainable use.
